PROFILE

Backend engineer with nine years building payment and identity systems in Node.js and PostgreSQL for regulated companies.

EXPERIENCE

Senior Backend Engineer, Northwind Payments

January 2019 - present, London

- Led the migration of the ledger service to PostgreSQL 14, cutting settlement reconciliation from six hours to eleven minutes.
- Designed the idempotency layer behind the public payments API.

Backend Engineer, Griffin Health

March 2016 - December 2018, Manchester

- Built the appointment scheduling service used by 40 clinics.
- Introduced contract testing across six internal services.

EDUCATION

BSc Computer Science, University of Manchester
2012 - 2015, First Class Honours

SKILLS

Node.js, TypeScript, PostgreSQL, Redis, Docker, AWS, Terraform
Distributed systems, API design, observability, incident response

CERTIFICATIONS

AWS Certified Solutions Architect - Associate, 2021
